

## Research/Tool Project

[200 points]

### Description:

1. Do research and write a survey report on **UML (Unified Modeling Language)** and supporting **tools**. The report should include your analysis, evaluation and recommendation on UML.
2. Select a **specific tool** and write an in-depth report on the chosen tool.
3. Do research and write a survey report on **RE (Requirements Management) tools**.
4. Select a **specific tool** from the tools surveyed and write an in-depth report on the tool.

### Deliverables:

- A survey report on “UML” and “UML tools”
- An in-depth report on a specific UML tool
- A survey report on “RE tools”
- An in-depth report on a specific RE tool

### Report Due & Presentation:

- 5/26/20: Progress presentation and discussion
- 6/2/20: Final reports, Final presentation and Q&A
